Centra Umbrella Range

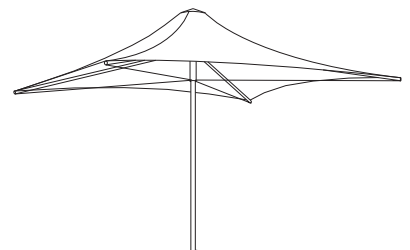

MakMax Architectural Umbrellas

CENTRAL SUPPORT PERMANENT UMBRELLA

The most popular and versatile umbrella in the MakMax Architectural Umbrella range, Centra is the perfect entertainer – ideal for cafes, restaurants, hotels, resorts, sports clubs and bars.

- » Centra umbrella models are available in a range of sizes from 8'10" up to 18'6".
- » Shapes available are square, truncated square, octagonal, and hexagonal.
- » Wind rated to 90mph.
- » Ability to link multiple umbrellas together to increase coverage area.
- » Installed as a permanent umbrella, Centra canopies can be closed in the event of severe weather.

Design. Engineer. Fabricate. Install.

MakMax Centra Umbrella Range

AESTHETICS & ACCESSORIES

- » Attention to detail in all aspects of product development means the finished product is architecturally pleasing and efficiently designed.
- » Range of colors, shapes, finishes, and branding possibilities.
- » Wide range of accessories available including;
 - Heaters and misters.
 - Lights and electrical connectivity.
 - Blinds and guttering.

DESIGN & ENGINEERING

- » Leaders in outdoor umbrella design since 1985.
- » All products are certified by a practicing and accredited structural engineer.
- » Wind rated to suit location and wind category. (up to 44m/sec.)
- » Structural design is to AS/NZS1170.0, AS/NZ1170.1, AS/NZ1170.2, AS4100, AS3600 and AS1170.4.

MEMBRANE

- » The tensile membrane canopy is fabricated from long-life, 100% UV stabilised, waterproof, architectural-grade PVC coated polyester fabric with a PVDF finish to both side.

STEEL FRAME

- » The structure employs tubular steel components finished with a four-layer steel protection system.
- » Choose from a wide range of steel powdercoat colours.

HARDWARE

- » Umbrellas canopy is tensioned with stainless steel under arm cables.
- » All hardware inclusive of nuts, bolts, washers, and rigging screws are stainless steel.
- » Arm end plugs are UV resistant nylon.
- » Top hats are spun aluminium with polyester powdercoat.

MANUFACTURE

- » Complete manufacture and assembly in house means full control of product standards.

DELIVERY

- » Capability to deliver product to any corner of the globe through an international network of affiliates.
- » Full service warranty and maintenance support.
