Features

The table meets Federal ADA requirements when surface mounted. The table top features a 1.64" diameter umbrella hole in the center.

The table legs have feet with pre-drilled .4" diameter holes for surface mounting to prevent movement. **Table must be surface mounted** for stability and to comply with warranty and Federal regulations; **mounting hardware is not included.**

Finish

Table top and seats are protected by the patented Fusion Advantage™ which is a heat fused plastisol coating with an average .125" thickness that creates an impervious rustproof barrier and resists UV deterioration, mildew, staining and fading. Plastisol is then encapsulated with a richly tinted, high-performance powder coating that won't rust, fade, peel, chip, crack, mold, or mildew. The finish has been tested to the requirements of ASTM E1354 and is in compliance with California Uniform Fire Code 1103.2.1.4.2.

Fade-resistant, powder coated steel frame and legs feature a state-of-the-art primer proven to prevent rusting. Treated components exceed the industry standard by 34% in testing by independent sources.
